

DEVELOPER BRIEF — VERSION 1.0

Home Builders Funnel Page Rebuild Brief

Complete instructions for converting
graylockdigital.com/home-builders into a high-converting lead
capture page.

Page: graylockdigital.com/home-builders

Goal: Drive paid ad traffic to a single action — submitting the free demo request form

Total Changes: 6 specific updates covering copy, CTAs, pricing section, social proof, modal form, and mobile UX

OVERVIEW

Why This Page Needs to Change

This page suffers from the exact same conversion killers as the contractors page: competing CTAs, complex pricing tiers that distract from the main offer, and the lead capture form buried at the bottom. It is currently built like a brochure, not a funnel.

Every change in this brief is designed to reduce friction, clarify the offer, and direct every visitor toward one action: submitting their name, company, and email to receive a free custom homepage demo.

All copy below is final. Do not paraphrase or rewrite. Use the exact text as written.

CHANGE 1

Hero Section — Rewrite All Copy

Location: The first visible section when the page loads (above the fold).

Headline

Current Text	Replace With
<i>Website Design for Custom Home Builders.</i>	Stop Losing High-Budget Builds Because Your Website Looks Cheap.

Subheadline

Current Text	Replace With
<i>Showcase your work and attract higher-budget clients. We build custom, lead-generating websites that make your phone ring. Book a 15-minute call, and we will design a custom homepage concept for your business — 100% free, before you spend a dollar.</i>	We build custom websites for home builders that rank on Google, showcase your portfolio, and turn visitors into booked estimates. Live in 7 days. \$0 upfront build fee this month.

Primary CTA Button

Current Text	Replace With
<i>Get Your Free Website Strategy</i>	Get Your Free Homepage Demo

IMPORTANT

This button must scroll the user directly to the lead capture form at the bottom of the page, OR open the lead capture form as a pop-up modal (see Change 5). Do not navigate to a new page.

CHANGE 2

Unify All CTA Buttons Across the Entire Page

Every button on this page must say the same thing and trigger the same action. Multiple competing CTAs create confusion. A confused visitor does not convert.

Button Location	Current Text	New Text
<i>Hero section primary button</i>	Get Your Free Website Strategy	Get Your Free Homepage Demo
<i>Any mid-page CTA buttons</i>	Book My Free Demo / Get Started	Get Your Free Homepage Demo
<i>Pricing card buttons (all three)</i>	Book My Free Demo	Get Your Free Homepage Demo
<i>Bottom countdown section button</i>	Request My Free Custom Demo	Get Your Free Homepage Demo

IMPORTANT

Every one of these buttons must trigger the same action: either scroll to the lead capture form at the bottom of the page, or open the lead capture form as a pop-up modal (see Change 5).

CHANGE 3

Replace the Pricing Tiers Section

Location: The "Simple Monthly Subscription / Pick the Plan That Fits" section.

What to do: Remove the three-tier pricing card layout entirely. Replace it with the simplified pricing statement section below.

Design Instructions: Clean, high-contrast section. Dark or white background. No complex card layout. Simple, scannable bullet points. One CTA button below the bullet list.

SECTION EYEBROW LABEL

Simple, Transparent Pricing

SECTION HEADLINE

Professional Web Design Shouldn't Cost \$10,000 Upfront.

SECTION BODY

Traditional agencies charge \$5,000 to \$15,000 to build a custom site — and then disappear. We do it differently. You get a fully custom website with no large upfront cost, no long-term contract, and a team that stays with you after launch.

BULLET POINTS (USE CHECKMARKS OR ORANGE DOTS)

- \$0 Build Fee — this month only (normally up to \$1,499)
- Starting at \$199/month — includes hosting, maintenance, and updates
- 7–10 business day delivery
- 30-Day Money-Back Guarantee
- Month-to-month — cancel anytime

SUPPORTING LINE (SMALLER TEXT, BELOW BULLETS)

Want to see the full plan breakdown? We'll walk you through all the options on your free 15-minute call.

CHANGE 4

Strengthen the Social Proof Section

Location: The "Don't Just Take Our Word For It / Real Results From Real Business Owners" section.

What to do: Keep all three testimonials and their existing text. Add a bold pull-quote line at the top of each testimonial card — the single strongest sentence from each review. This allows skimmers to absorb the social proof without reading the full paragraph.

Design Instructions: Add a visually distinct pull-quote line (larger font, bold, orange or dark color) at the top of each testimonial card. The full testimonial text remains below it unchanged.

PULL-QUOTES TO ADD TO EACH TESTIMONIAL CARD

TESTIMONIAL 1 — KYLEN & KEITH PERKS

"Their attention to detail and dedication to delivering a product that reflected our goals exceeded all expectations."

TESTIMONIAL 2 — BOBBIE WOLD

"New clients regularly tell me they reached out because the website made them feel confident before we ever spoke."

TESTIMONIAL 3 — JIM ERWIN

"They had a rough-draft site to me in a matter of days that far exceeded what I had before. 10 out of 10, hands down."

CHANGE 5

Add Pop-Up Modal Form to All CTA Buttons

What to do: Keep the existing lead capture form at the bottom of the page exactly as-is. Additionally, make every "Get Your Free Homepage Demo" button across the page trigger a pop-up modal containing the same form fields. This ensures visitors ready to convert in the hero section do not have to scroll through the entire page to find the form.

Modal Design Instructions: Clean white modal with a dark background overlay. Closeable with an X button in the top right corner.

EXACT COPY — MODAL FORM

MODAL HEADLINE

Get Your Free Custom Homepage Demo

MODAL SUBHEADLINE

Tell us a bit about your business and we'll reach out within 1 business day to schedule your free 15-minute discovery call.

FORM FIELDS (ALL REQUIRED)

First & Last Name · Company Name · Email Address

SUBMIT BUTTON TEXT

Get My Free Demo

TRUST LINE BELOW SUBMIT BUTTON

We'll confirm your time by email within 1 business day. No spam — ever.

IMPORTANT

The modal form and the bottom page form must submit to the same destination — same CRM, email platform, or notification system. Do not create a separate lead pipeline for modal submissions.

CHANGE 6

Add Sticky CTA Bar on Mobile

Location: Mobile version of the page only (screens narrower than 768px).

What to do: Add a sticky bar that remains fixed at the bottom of the screen as the user scrolls on mobile. This bar contains one button only. It must not appear on desktop.

Design Instructions: Thin sticky bar, dark background matching the page's dark sections, full-width orange button. Ensure the page body has sufficient bottom padding on mobile to prevent content being obscured by the bar.

BUTTON ACTION

Opens the modal form (same modal from Change 5)

VISIBILITY RULE

Display only on screens narrower than 768px. Hidden on desktop and large tablet.

QA CHECKLIST

Before Go-Live — Verify Every Item

- ☐ Hero headline updated to new copy
- ☐ Hero subheadline updated to new copy
- ☐ Hero CTA button text updated and triggers modal or scrolls to form correctly
- ☐ All buttons across the page unified to "Get Your Free Homepage Demo"
- ☐ All buttons trigger modal or scroll to form correctly
- ☐ Pricing tiers section replaced with simplified pricing statement and new copy
- ☐ Pull-quote lines added to all three testimonial cards
- ☐ Modal form live and functional
- ☐ Modal closeable with X button in top right corner

- ☐ Modal form submits to same destination as bottom page form
- ☐ Sticky mobile CTA bar live and functional on screens under 768px
- ☐ Sticky bar hidden on desktop
- ☐ All form submissions confirmed arriving in CRM / notification system
- ☐ Page tested on mobile (iPhone and Android) and desktop before launch
